International Conference
on Gas Discharges and
Their Applications
GD 2010
Greifswald Germany

First Announcement

5th-10th September

INVITATION TO PARTICIPATE IN GD 2010

It is a great pleasure to invite you to take part in the 18. International Conference on Gas Discharges and Their Applications which is to be held in Greifswald, Germany from 5th – 10th September, 2010.

Venue: The conference will take place in the newly built town hall in Greifswald's old theatre district. The venue is close to the city centre and near the accommodation for delegates. There are some nice hotels with different star ratings in the area and also several guest houses. Details will be published closer to the conference dates.

Travel: Berlin and Hamburg International Airports can be reached within 2.5 h by train and car. A detailed timetable for the train connections can be obtained at the travel service of the Deutsche Bahn from: www.reiseauskunft.bahn.de. To reach Greifswald by car it is easiest to take the motorway A20. An alternative air connection is to arrive in Germany via Munich and take a connecting flight to Rostock/Laage which is situated near the motorways A19 and A20.

Conference Style: The format for the conference series is well established. Abstracts are refereed, as are the four-page papers which are all orally presented at conference sessions. In line with recent GD conferences, there will be modest page charges and a moderate conference fee to cover the cost of the proceedings etc. There are to be plenary sessions with invited speakers, and workshop arrangements for current topics of major scientific interest.

Banquet: A conference banquet is to be held in the restaurant Le Croy which belongs to the Regional Museum of Pomerania.

Accompanying Persons: Delegates are most welcome to bring their families and guests. Visits will be organized for them to various locations. Greifswald has many attractions such as the museal harbour with its maritime touch, the Cathedral St. Nikolai, the

monastery ruins of Eldena, the theatre and the Regional Museum of Pomerania.

Invitation Letters: The secretariat will provide a letter of invitation to the conference by request from any of the delegates. These letters will not imply funding support or paper acceptance by the organizers.

Initial Declarations of Interest: Please complete and return the attached form by the end of August 2009, or contact us via our website whose address is given in the contact details on this form.

On behalf of the Local Organizing Committee, we hope that we will be welcoming you to Greifswald in September, 2010.

Prof. Klaus-Dieter Weltmann (Chairman GD2010).

SCIENTIFIC TOPICS

- A Arcs
- B Barrier and Surface Discharges
- C Glows and Breakdown
- D High Pressure Plasmas and Applications
- E Low Pressure Plasmas and Applications
- F Environmental and Medical Applications
- G Pulsed-Power Application
- H Light Sources
- I Lightning
- J Test Techniques and Diagnostics
- K Fundamental Processes and Cross-Sections
Measurement Techniques
- L Emerging and Topical Applications of Gas Discharges

International Conference
on Gas Discharges and
Their Applications

Conference: 5th-10th September 2010

Please put my name on the mailing list

Name: _____ Address: _____

Telephone: _____ Fax: _____ E-mail: _____

I may submit abstracts on the following scientific topics (please enter A, B, etc.):

I would be interested in a workshop in the following scientific field:

I am interested in the following accommodation: city centre hotel; student accommodation.

Likely number of accompanying persons (please specify): _____

NOTE THAT PRE-REGISTRATION CAN ALSO BE DONE ON OUR WEBSITE: <http://www.gd2010.org> and please login.

Registration is also possible by mail. Therefor please cut out the registration form and send it to address for correspondence.
